Assistant Director, Research and Reports.

SUPPLIES.

Clarification of Freedures for Initioting Collection

l. In the future, collection requirements are to be initiated as

- levied on a non-COMINT collector are to be written in terms of the lovest possible classification and submitted to St/I for processing.
- b. Requirements which are CONINT in nature and which must be levied on the National Security Agency or on any other CONINT collector eve to be kept within the CONINT channel and processed through St/s.
- G. Requirements to be levied on a new-COMINI collector that are generated with COMINI materials as background data are to be sanitized, if possible, and substitted to St/I for processing. In the event a strong justification describing the need for the information cannot be unitable vithout COMINI support, a new-COMINI requirement together with a COMINI justification should be drafted and submitted to St/S for processing.
- 2. If any questions exist concerning the implementation of these procedures, either Chief, St/I or Chief, St/S should be consulted.
